40th GEORGE III.

22nd March, 1800.

GEORGE THE THIRD, by the Grace of God, of Great Britain, France, and Ireland, King, Defender of the Faith, &c. To all to whom these Presents shall come, Whereas our Royal Predecessor, King Edward IV., by certain Letters Patent, under the Great Seal of England, bearing date the 24th Day of February, in the first Year of his Reign, did at the Supplication of the Freemen of the Mystery of Barbers of the City of London, using the Mystery or Faculty of Surgery, grant to them, among other Things, that the said Mystery, and all the Men of the same Mystery of the said City, should be one Body and Perpetual Community, and that two Principals of the same Commonalty, of the most expert Men in the Mystery of Surgery, might, with the assent of twelve or eight Persons at the least, of the same Community, every Year elect and make out of the Community, two Masters, or Governors, being the most expert in the Mystery of Surgery, to oversee, rule, and govern, the Mystery and Commonalty aforesaid.

Recital of the Letters Patent of 1st Edward 4th;

incorporating the Freemen of the Mystery of Barbers of the City of London.

And whereas by an Act of Parliament, made and passed in the 32d Year of the late King Henry VIII. intitled for Barbers and Surgeons, after reciting, that, within the City of London, there were then two several and distinct Companies of Surgeons, occupying and exercising the Faculty of Surgery, one Company called the Barbers of London, and the other Company called the Surgeons of London. It was thereby enacted, That the said two several and distinct Companies of Surgeons should from thenceforth be united, and made one intire and whole Body Corporate, and one Commonalty Perpetual, which at all times thereafter should be called by the Name of the Masters or Governors of the Mystery and Commonalty of the Barbers and Surgeons of London; and by the same Name to implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Suits.

Of the Act 32d Henry 8th.

By which the two Companies of Barbers of London, and Surgeons of London were united.

Of the Letters Patent of 5th Charles 1st.

And whereas, in and by certain Letters Patent, under the Great Seal of England, bearing Date the 15th Day of August, in the 5th Year of the Reign of His late Majesty, King Charles I., reciting that the Men of the same Companies enjoyed divers Liberties and Franchises within the City of London, the Suburbs and Liberties thereof, by virtue of divers Acts of Parliament, and divers Charters, and Letters Patent, His said Majesty did grant and confirm unto the said Masters and Governors of the Mystery and Commonalty aforesaid, and their Successors, all and singular the Manors, Messuages, Lands, Tenements, Customs, Liberties, Franchises, Immunities, Jurisdictions, and Hereditaments, whatsoever, which the Men of the said Companies then held, used, and enjoyed, by any lawful Means or Title whatsoever: And his said late Majesty did thereby give power to the said Corporation, to make annual Elections of Masters or Governors of the said Commonalty, whereof two to be Professors in the Art and Science of Surgery; and also to elect and constitute ten of the Freemen of the said Society to be Examiners of Surgeons in London.

Which confirmed to such united Company all the possessions, franchises and liberties which the said Company then held and enjoyed,

Therefore His Majesty was pleased to incorporate the Members of the late Company, and all such Persons who since the Dissolution thereof have obtained Letters Testimonial &c.

THE COUNCIL.

The Council, the governing body of the College, consists of twenty-four Members, three* of whom go out in rotation annually in July, but are eligible for re-election by the Fellows of the College. All proceedings of the Court of Examiners, the Board of Examiners in Anatomy and Physiology, the Dental Board, and the several Committees are reported to the Council for approval and confirmation. The Meetings of the Council are generally held in each month of the year, except in the month of September, and at such other times as the business of the College may require.

* If in any year one of the three retiring Members be President of the College, he does not go out of office until the succeeding year.

THE COURT OF EXAMINERS.

The Court of Examiners consists of ten Members elected by the Council from the Fellows of the College. The Court conducts the Pass Examinations in Surgery and Surgical Anatomy of Candidates for the Diplomas of Fellow and Member of the College.

THE BOARD OF EXAMINERS IN ANATOMY AND PHYSIOLOGY FOR THE FELLOWSHIP.

The Board consists of eight Members annually elected by the Council. The Board conducts the Primary Examinations in Anatomy and Physiology for the Diploma of Fellow.

THE EXAMINERS UNDER THE CONJOINT EXAMINING BOARD IN ENGLAND.

The following Examiners are elected annually by the Council under the Examining Board in England by the Royal College of Physicians of London and the Royal College of Surgeons of England, viz. :—

First Examination.—Two Examiners in Elementary Biology.

Second Examination.—Four Examiners in Anatomy and three Examiners in Physiology.

Third Examination.—Four Examiners in Midwifery.

Examination in Public Health.—Two Examiners.

BOARD OF EXAMINERS IN DENTAL SURGERY.

The Board consists of eight Members elected by the Council for five years, viz.:—four Members of the Court of Examiners of the College, and four other persons duly registered under "The Dentists' Act, 1878." The Board conducts the Examination of Candidates for the Diploma in Dental Surgery of the College.

The Preliminary Science Examination, which has to be passed by Candidates who registered as Dental Students on or after the 1st January 1897, is identical with Part I. of the First Examination of the Conjoint Examining Board in England, and is conducted by the Examiners appointed under that Board.

RETURNS OF THE RESULTS OF THE SEVERAL EXAMINATIONS.

The following is a statement of the number of Candidates who presented themselves for the Fellowship, for the First, Second, and Third Examinations and the Examination in Public Health of the Conjoint Examining Board, and for the Diploma in Dental Surgery respectively, with the results of the several Examinations, viz.:—

I. Annual Meeting of Fellows and Members.

This Meeting was held on Thursday, the 17th November, 1904, at 3 o'clock P.M.

The Chair was taken by the President, Mr. John Tweedy. Seventeen Fellows, including 10 Members of the Council, and 34 Members attended the Meeting.

The President placed before the Meeting the Report of the Council for the period from the 4th August 1903 to the 1st August 1904, and called attention to some of the more important matters which had come under the consideration of the Council during the year.

Copies of the Report had been circulated to 601 Fellows and 3,144 Members.

The following Resolutions were carried at the Meeting, viz.:—

I. Moved by Mr. T. Garrett Horder, M.R.C.S., seconded by Mr. F. W. Collingwood, M.R.C.S., and carried with one dissentient:—

> That the Council be asked to take the necessary steps in conjunction with the Royal College of Physicians to ensure that all persons who pass the Conjoint examination shall be legally entitled to call themselves Doctors.

II. Moved by Mr. Joseph Smith, M.R.C.S., seconded by Mr. George Brown, M.R.C.S., and carried with one dissentient:—

> That this Meeting considers the reply of the Council to the Resolutions passed at the last Annual Meeting of Fellows and Members to be most unsatisfactory. In view of the repeated refusal of the Council to accede to wishes of the Members, expressed in meetings to which they have been annually summoned for twenty years, this Meeting emphatically repudiates the claim of the Council to represent the Members, and regards its attitude in this question as not convincing to the great majority of the Body Corporate.

III. Moved by Dr. G. Danford Thomas, M.R.C.S., seconded by Mr. K. H. Cornish, M.R.C.S., and carried *nem. con.*:—

> That the Report of the Committee of the Council on "The Relations of the Medical profession to the Coroner's Court" is unsatisfactory, and that this Meeting regrets that the Council did not see their way to make an independent enquiry into the matter, with the assistance of some Fellows and Members having intimate knowledge of the subject.

A vote of thanks to the President, moved by Dr. Danford Thomas and seconded by Mr. George Brown, terminated the proceedings.

The Council thought that Resolutions Nos. II. and III. did not call for any comment on their part, but with regard to Resolution No. I. they determined to send a copy thereof to the Royal College of Physicians of London, and to address that College upon the subject of the Resolution in the following terms, viz.:—

> The Council, while they believe it to be impracticable to obtain a legal right to the title of Doctor for any persons who do not hold the degree of M.D., suggest it may be expedient not to enforce any measure prohibiting the use of the title by duly qualified medical men.
>
> The Council therefore desire to call the attention of the Royal College of Physicians to the complaint made by Members of the Royal College of Surgeons holding the Licence of the Royal

College of Physicians of London that they are forbidden by Bye-Law 177 of the latter College to call themselves "Doctors."

These Members point out that for generations the title of Doctor has by public consent been accorded to medical men generally, and that it is used by those holding the degree of M.B., although they have no legal right to it. It is also stated that the Royal College of Physicians of Ireland officially sanctions the use of the title by its Licentiates, and that Licentiates of the Royal College of Physicians of Edinburgh are encouraged to use it.

Those who have taken the Diplomas of the two Royal Colleges under the Regulations of the Conjoint Board therefore regard themselves as placed at a disadvantage as compared with the Licentiates of other Institutions, and they moreover believe that the prohibited use of the title has in many cases the effect of preventing students from seeking the Diplomas of the two Colleges.

The Council therefore beg that the Royal College of Physicians will take the matter into consideration, and they trust that it may be possible to remove a prohibition, which affects and is resented by a large number of Members of the Royal College of Surgeons.

This communication was taken into consideration by the Royal College of Physicians, but the decision arrived at was adverse to any alteration in Bye-Law No. 177.

It subsequently transpired, from a letter received from the Secretary of the Royal College of Physicians of Edinburgh, that the statement that Licentiates of that College are encouraged to use the title of Doctor is misleading, and, with the object of removing any misapprehension which may have been caused by the statement, the following extract from the Laws of the Royal College of Physicians of Edinburgh is appended, viz.:—

> "The Diploma granted by the College shall not entitle the holder, by virtue of such Diploma, to assume the title of Doctor or to append to his name the title of Doctor of Medicine, or the letters M.D., or other abbreviation which might suggest that the holder had obtained the degree of Doctor of Medicine from a University."

II. School Certificates.

In July last the College received from the Board of Education a copy of certain Proposals, framed by the Consultive Committee of the Board, for organising a *System of School Certificates* for the Secondary Schools of England; that is, Certificates showing that the holders have received a good general education and passed a satisfactory examination in the subjects of an approved School-curriculum.

The communication was accompanied by an explanatory letter from the Board asking that they might be favoured with the views of the College on the Report of the Board's Committee, and accompanied by a preamble to the Report, in the form of a letter to the Board by the Secretary of the Committee, in which the circumstances which gave rise to the proposals were fully set out. These may be briefly summarized as follows : —

In 1901 a Memorial was issued by a Conference of Head Masters to the Corporations granting qualifications in various professions, who either held examinations in subjects of General Education preliminary to the commencement of professional studies, or issued a list of examinations conducted by other Bodies which they recognised as sufficient. The Memorial drew attention to the grave inconvenience and wastefulness of this system ; the diversity in detail of the examinations, even when equivalent in standard, being such as to prevent pupils preparing for different examinations being taught together, and withdrawing them from the regular class instruction of the Schools. They suggested as a remedy the institution of one uniform examination to be held three times a year at different centres. This Memorial was forwarded by one of the Bodies to whom it had been sent to the Board of Education, and the matter was referred by the Board, in the spring of 1902, to their Consultative Committee for consideration and report.

The Consultative Committee, after a preliminary inquiry, asked for an enlargement of the scope of the reference, which was granted ; and after a prolonged consideration of the whole subject in 1903 and 1904, and after conferences with various institutions and associations interested in the matter, issued their Report in the form of " Proposals for a System of School Certificates."

The Consultative Committee express the opinion that a general system of school certificates is desirable. They, however, do not suggest that the examinations should be conducted by means of papers set from a single central organisation, but recommend that they should be controlled by a recognised examining body which should be either a University, or a combination of Universities, or an Examination Board representative of a University or Universities and of the local authorities prepared to co-operate with them. It is proposed that recognition of these examining bodies should mean recognition by the Board of Education ; that a Central Board, consisting of representatives from the Board of Education and the examining bodies should be established to co-ordinate and control the standards of the examinations ; and that the examinations should be conducted by external and internal examiners.

The Council of this College, both separately and in association with the Royal College of Physicians, have considered the several proposals of the Consultative Committee of the Board of Education, and have expressed their general approval of the scheme.

III. Registers of Medical and Dental Students.

With reference to the endeavour of the General Medical Council to obtain statutory powers to institute Registers of Medical and Dental Students a letter, dated the 1st November 1904, has been received from the Clerk of the Privy Council transmitting, by direction of the Lord President of the Council, a copy of a letter addressed to the General Medical Council, stating that the Lord President has had under consideration the proposal of the General Medical Council for the establishment of a Register of Medical Students and the imposition of a registration fee not exceeding £1, and that His Lordship has also received communications on the subject from the Presidents of the Royal Colleges of Physicians and Surgeons, and suggesting that, "in the circumstances, it might be expedient for the Medical Council to confer with the Colleges with a view to the preparation of a Scheme providing for their co-operation towards the desired end on a basis that would, in some form or other, recognise existing rights."

The subject was further considered by the General Medical Council at its Session in November, and after considerable discussion the following resolution was adopted, viz.:—

> "That a reply be sent to the Privy Council stating that this Council now sees great difficulties from opposition by certain Licensing Bodies in asking the Lord President to introduce a Bill giving to the General Medical Council statutory power to establish and maintain Registers of Medical and Dental Students and to impose a fee not exceeding £1 for registration therein. The General Medical Council will be prepared at the proper time to offer an alternative proposition which it hopes may be approved of by the Lord President."

During the discussion it was stated that the Royal College of Physicians of Ireland had resolved to oppose the proposed Bill. It was also stated that the "alternative proposition" mentioned in the foregoing resolution was an increased fee on the registration of practitioners.

IV. Proposed Institution of School for Early Subjects of Medical Curriculum.

At the Meeting of the Council in February a proposal was brought forward that the Council should take into consideration the practicability of the institution by the College of a School for the teaching of the early and intermediate subjects of the Medical Curriculum and of advanced Pathology.

After a preliminary discussion the Council agreed to appoint a Committee to consider and report upon the subject, and at the Quarterly Meeting of the Council in April this Committee submitted a Report in which they expressed the opinion that "it is impracticable for the College to institute such a School without adequate endowment."

The Council concurred in the view expressed by the Committee, and no further steps have been taken in the matter.

The following is the Report of the Committee, viz.:—

REPORT, dated the 23rd of March, 1905, of the Committee on the proposed institution by the College of a Medical School.

THE Committee, appointed by the Council on the 9th February, 1905, "to consider and report upon the practicability of the institution by the College of a School for the teaching of the early and intermediate subjects of the Medical Curriculum and of advanced Pathology," having held meetings on March 16th and on this date, have now to present the following Report.

The Committee have had under consideration a scheme prepared by Mr. Makins. This scheme proposed that the School should provide for the teaching of (*a*) the early subjects, viz.:—Chemistry, Physics, and Biology; and (*b*) the intermediate subjects, viz.:—Anatomy and Physiology; and it was suggested that, with the concurrence of, or by arrangement with, the Royal College of Physicians, the Examination Hall Buildings with the addition of a storey on the front portion might be used for the purpose. This arrangement would, it is thought, provide accommodation for a school with an entry of 100 students per annum, or about one-fourth of the Medical Students of the Metropolis.

It was contended that such a scheme would establish a closer relation between the College and the Medical Schools, and consequently with Medical Education in London; that it would not interfere with other Centres which might be established in London for the teaching of the subjects in question; that it would meet a want felt by existing Medical Schools desirous of being relieved of the responsibility of teaching the earlier subjects of the Medical Curriculum; that the instruction in these subjects would be under the direct control of a Body composed of Medical Men, which might not be the case in Centres established by the University of London; that such a School established on adequate lines would attract Students to London and prevent a further diminution in their numbers, and moreover that the existence of premises in which the School could be housed allowed of an early realisation of the Scheme.

The Committee have taken into consideration the practicability of instituting a School of this character, and have had estimates prepared (1) of the annual cost to the two Colleges of the Examination Hall Buildings under present conditions; and (2) of the

additional cost which would be incurred by instituting a Medical School and using the Buildings for the School as well as for Examinations.

The cost of adding another storey to the front portion of the Building and of fitting the rooms for the purposes of the School would, it is thought, involve an initial capital outlay of £15,000. It would no longer be possible to let any of the rooms in the Building, and this would involve a loss of about £3300 per annum in rents. It is, however, not anticipated that the gross annual cost of the Building would be increased, except in so far as the additional storey would involve additional expense, and if, as proposed, the whole of the Building were used for the School, *i. e.* "for the promotion of education," it should be possible to obtain exemption from Corporation Duty amounting to £225 per annum, now paid in respect of three-quarters of the Building.

If the Scheme were successful, and this would of course depend mainly upon the support accorded to it by existing Medical Schools, and if the full complement of 100 students per annum were realized, the receipts should amount to £3000 the first year, £6000 the second, and probably to about £8000 thereafter.

The gross additional annual cost, involved by the institution of the School, is estimated at £11,624, but this would be reduced to £3399 after the first two years, if the total of £8000 from Students' fees were realized, and if the Building were exempted from Corporation Duty. The deficit in the first two years would of course be much larger, and would have to be met by a further expenditure of capital.

In the estimate of the expense of the Examination Hall, the full cost has been taken into consideration, and not simply the share borne by this College. Thus, when the net annual cost under present conditions is represented as £4413, it must be understood that only half this expense is borne by the College of Surgeons. In the same way, if the Royal College of Physicians were to take part in the scheme and share the expenses of the School, the additional cost to this College would, according to the estimate, be only half the sum of £3399.

The Committee have carefully considered this proposal for a School for the teaching of the early and intermediate subjects of the Medical Curriculum, and they are of opinion that it is impracticable for the College to institute such a School without adequate endowment.

V. Cairo Medical School.

The following Report of the Committee of Management relating to the conditions under which Students of the Cairo Medical School and Hospital may be admitted to the Examinations of the Conjoint Examining Board has been adopted, viz. :—

Report, dated the 5th June, 1905, of the Committee of Management.

The Committee of Management, in accordance with the desire of the Council of the Royal College of Surgeons, have investigated the conditions of study and examination at the Medical School and Hospital at Cairo.

Before reporting the results of their investigation, the Committee feel that it is desirable to place on record a short history of the circumstances which have led to this enquiry.

In November 1902, Mr. Henry Morris as Chairman of the Court of Examiners reported to the Council of the Royal College of Surgeons that an application from a student educated at the Cairo Medical School to be admitted to examination at the College had been submitted to the Court, and suggested that in view of the probability of further applications of a similar nature it would be desirable to obtain a report upon the School.

As Mr. Reginald Harrison had at that time been appointed the Representative of the Royal College of Surgeons at the Medical Congress at Cairo, he was requested by the Council to visit and report on the Medical School and Hospital, which he kindly consented to do.

In January 1903, the Director of the Cairo School of Medicine informed the Council that he had furnished Mr. Harrison with full information respecting the curriculum of the School, and expressed the hope that the result of his investigation might lead to the recognition of its instruction by the College. A copy of a dispatch from Lord Cromer to the Secretary of State for Foreign Affairs was at the same time forwarded to the Council of the College, in which it was stated that the Khedive and the Egyptian authorities generally were most grateful to the Royal College of Surgeons for the action they had taken in this matter, and warmly appreciated Mr. Harrison's services.

In February 1903 a full report on the Cairo Medical School and Kasr el Ainy Hospital was made to the Council by Mr. Harrison, and this report was accompanied by official documents relating to the management, equipment, regulations and curriculum of the School and Hospital.

The Council then, on the 12th February, 1903, passed the following resolution:—

"That the Report be referred to the Committee of Management to consider in connection with the application of the Cairo Medical School for recognition as a place of study for candidates for the Diplomas of the two Royal Colleges."

In pursuance of this Resolution the Committee of Management have considered the question at several meetings, and have had prolonged correspondence with the Director of the Egyptian Medical School as well as with H.E. the Minister of Public Instruction.

The Committee are satisfied that the curriculum of the School

corresponds in its general arrangements with the Regulations of the Conjoint Board. There are differences of detail. The curriculum, however, extends over four years only, so that it will be necessary that a fifth year of study should be completed at some Medical School and Hospital recognised by the Board before the students can be admitted to the Final Examination.

In the course of the communications the suggestion has been made that exemption from the First and Second Examinations of the Conjoint Board shall be allowed in the case of those Candidates who have obtained the Diploma of the Egyptian Government after completing the curriculum of study; if this is not allowed there will be little inducement to the Diplomates to come to this country for an additional year of clinical study, as their time would be to a great extent taken up with subjects in which they have already shown proficiency.

The Committee, however, were not prepared to recommend the Royal Colleges to adopt this suggestion under the existing conditions, and enquiry was made as to whether it would be agreeable to the Egyptian authorities that the Royal Colleges should appoint a Visitor to the Examinations in Cairo with a view to the establishment of a system of general supervision by the Royal Colleges, so as to provide a guarantee of the maintenance of the standard, and, at the same time, to afford a means of advising the authorities from time to time on any points in the curriculum and examination which, in the opinion of the Royal Colleges, might be capable of improvement.

This proposal was welcomed by the Authorities in Egypt, and arrangements were at once made by them to alter the dates of the Examinations from June to December and January so as to render it more convenient for the attendance of a Visitor. A revised curriculum embracing alterations suggested by the Committee was at the same time forwarded.

The Committee of Management therefore recommend that, subject to the following conditions, Candidates who have received the Diploma in Medicine and Surgery of the Egyptian Government, after passing the required Examinations and completing the curriculum of professional study at Cairo extending over four years, be admitted to the Final Examination of this Board on the completion of one year of additional study at a Recognised Medical School and Hospital in the United Kingdom, during which they shall complete the courses required by the Regulations of the Conjoint Board.

These conditions are:—

1. That an official Representative of the Examining Board of the Royal Colleges be appointed annually to attend, as Visitor, the Examinations of the Cairo Medical School and Hospital, which are held in December and January, to take a general survey of the Examinations and to note the methods of the Examiners and the standard required in each subject.

2. That the Visitor be selected as far as possible from amongst those who are, or have recently been, Examiners of the Conjoint Board.

3. That the Visitor be asked to report on each subject of the Examination at which he is present for the information of the Committee of Management, who will communicate to the School from time to time any criticisms they may think right to make.

4. That the Visitor be requested to attend the examinations in Chemistry, Practical Pharmacy, Biology, Anatomy and Physiology, Elementary Pathology, as well as at the Final Examination in Medicine, Surgery, and Forensic Medicine.

5. That the recognition of the course of study and examinations take effect from the time the Visitor first attends the examinations, and that it be retrospective in so far that those candidates who are examined during the Visitor's attendance in the subjects of the Final Examination may be considered to have passed satisfactory examinations in Chemistry, Pharmacy, Biology, Anatomy and Physiology, provided the Visitor reports favourably on the examinations in those subjects.

6. That the recognition be granted only to the Examinations which are held in December and January to which the Royal Colleges appoint a Visitor unless the Royal Colleges shall otherwise determine.

7. That the expenses incurred by the Visitor do include a First Class passage out and home, together with a fee of ten guineas for each day on which he is present at the Examinations, such expenses to be defrayed by the Egyptian Government.

8. That the absence of the Visitor shall not, of itself, cause the recognition of the Examinations to lapse, but that the recognition shall be withdrawn only after written notice has been given to H.E. the Minister of Public Instruction.

No difficulty appears likely to arise on the question of the Preliminary Examination in general education, as the Egyptian Secondary Education Certificate Examination is already included in the list of Examinations recognised by the Conjoint Board.

It should be added that a communication has been received from H.E. the Minister of Education of the Egyptian Government expressing his complete concurrence in the above conditions.

VI. Regulations for Licence in Dental Surgery.

In June of last year the Council received a Petition signed by a large number of Dental Students, asking for the publication of a syllabus giving the general range of knowledge required in Anatomy, Physiology, and Surgery, and also desiring that examinations for

the Licence in Dental Surgery should be held quarterly as in the case of the examinations for the Diploma of Member.

This Petition was referred by the Council to the Board of Examiners in Dental Surgery for consideration, and upon the recommendation of the Board the Council decided to issue the syllabus desired by the Petitioners.

The syllabus has accordingly been prepared and approved by the Council and will in future be issued with the Regulations relating to the Licence in Dental Surgery.

With regard to the number of examinations the Council were not prepared to institute quarterly examinations, but decided to continue, as in the last two years, to hold an examination in Anatomy, Physiology, and Surgery (Part I. of the Second Professional Examination for the Licence) in February as well as in May and November.

It has been determined to recognise the Licence of the Dental Board of Victoria (Australia) and that the holders of that Licence be admissible until further notice to the First and Second Professional Examinations for the Licence of this College together without being required to pass the Preliminary Science Examination.

A similar privilege will be allowed to holders of the D.D.S. of Harvard University, the D.D.S. of the University of Pennsylvania, and the D.D.S. of the University of Michigan subject to the production of satisfactory evidence as to education and examination.

An alteration has also been effected in the Regulations with the object of affording Colonial and Indian Graduates and Licentiates in Medicine and Surgery, whose degrees or qualifications are registrable in this Country on the Colonial Register, the same privileges as regards exemption from examination in the subjects of Part I. of the Second Professional Examination for the Licence (Anatomy, Physiology, and Surgery) as are accorded to British Graduates and Licentiates.

VII. Central Midwives Board.

Mr. J. Ward Cousins, who has been re-appointed a member of the Central Midwives Board by the Council of this College under Section 3 of the Midwives Act 1902, submits the following Report regarding the proceedings of the Board, viz. :—

Riversdale, Kent Road,
Portsmouth,
February 25th, 1905.

Mr. President and Gentlemen,

I have the honour to present to you again a short statement of the work of the Central Midwives Board during the past year. Twenty-three meetings have been held since my last report of February 2nd, 1904.

The arrangements for the future training of pupil-Midwives have received the careful attention of the Board. The following table indicates the number of the training schools recognised, and the number of teachers appointed by the Board up to the present time:—

	Training Schools.	Teachers.
England	28	54
Wales	3	4
Scotland	4	1
Ireland	6	4
India	1	0
	42	63

The scheme of examinations prepared by the Board has recently received the approval of the Privy Council.

The examinations will be partly oral and partly written. The written examination will consist of six questions, and the time allowed for answering them will be three hours. Fifteen minutes will be the average period for the oral examination of each candidate.

The examination will embrace the following subjects:—

The elementary anatomy of the female pelvis and generative organs.
Pregnancy and its complications.
The symptoms, course, and management of natural labour.
The signs of abnormal labour.
Hæmorrhage: its varieties and the treatment.
Antiseptic Midwifery.
Management of the puerperal patient.
Management of infants, and the signs of important diseases which may develop soon after birth.
Duties of the midwife.
Obstetric emergencies and how the midwife should deal with them before the arrival of the doctor.
Disinfection of person, clothing and appliances; house sanitation.
Puerperal fever: its nature, causes and symptoms.

Any candidate, who during the examination shows a want of acquaintance with the ordinary subjects of elementary education, may be rejected on this ground alone.

The examiners appointed by the Central Midwives Board will be men or women who are duly qualified practitioners. The examiners may, however, when they see fit, with the consent of the Board, employ for certain parts of the examination properly qualified women who are not medical practitioners.

The examinations will take place both in London and the

Provinces three times a year, or oftener if necessary. They will be held simultaneously and on the same papers.

The first examination is fixed for June, 1905, and the first Provincial centres will be Bristol, Manchester, and Newcastle-on-Tyne.

On the first day of April of the present year, the provisions for existing widwives under the second section of the Midwives Act will expire; and, after that date, no woman will be entitled to use the name or description of Midwife, implying that she is a person specially qualified to practise midwifery, unless she has obtained the certificate of the Central Midwives Board. Fifteen thousand four hundred and ninety women have already been entered on the First Midwives Roll; of this number seven thousand and forty-two have been admitted on certificates of training approved by the Board, and the remaining eight thousand four hundred and forty-eight have produced satisfactory evidence, that before the passing of the Act they had been for at least one year in *bonâ fide* practice as midwives. The majority of these women, it is no exaggeration to state, are both ignorant and incompetent, and, unfortunately, for some years at least they will continue to follow their calling among the poor classes of the population throughout the country.

The following table exhibits the various qualifications of the midwives now admitted to the First Midwives Roll:—

Royal College of Physicians of Ireland	6
Obstetrical Society of London	5453
Rotunda Hospital	317
Coombe Hospital	73
Queen Charlotte's Hospital	282
Liverpool Lying-in Hospital	211
British Lying-in Hospital	8
Glasgow Maternity Hospital	210
St. Mary's Hospital, Manchester	159
Manchester Maternity Hospital	47
City of London Lying-in Hospital	78
Royal Maternity Hospital, Manchester	89
Salvation Army Maternity Hospital	20
National Maternity Hospital, Dublin	18
Limerick Lying-in Hospital	10
Cork Lying-in Hospital	12
Eden Hospital, Calcutta	3
Newcastle-on-Tyne Lying-in Hospital	11
Dundee Maternity Hospital	23
Aberdeen Maternity Hospital	12
Women in *bonâ fide* practice, July 1901	8448
	15,490

There will be a large addition to the Roll during the coming month, and roughly estimating the increase from the applications

daily forwarded to the Central Board, it is probable that the total number will advance to at least 18,000.

The County Councils and County Borough Councils throughout England and Wales are now actively engaged in carrying out the administration of the Act. They have appointed one hundred and twenty-seven local supervising authorities, and each authority is called upon to exercise general control and supervision over all the Midwives practising within its area, and also to investigate charges of malpractice, negligence, and misconduct, and whenever a *primâ facie* case is established to report the same to the Central Midwives Board.

Now the proceedings which arise out of these alleged offences are already beginning to exercise the serious attention of the Board. In every case, in which the evidence appears to demand that the Board should deliberate and pronounce its decision, the accused midwife is directed to forward her certificate pending the investigation, and to answer in writing the charges brought against her, and also to attend before the Board assisted by a friend or represented by a legal adviser. The rules for conducting these procedures have been carefully prepared and have now received the sanction of the Privy Council.

In conclusion, the opinion is steadily gaining ground that the introduction of educated midwives, controlled in their practice by well defined duties and restrictions, will in a few years prove of inestimable benefit to the poor people of the land. Still, it is already evident that the Midwives Act of 1902 is by no means a perfect piece of remedial legislation, and that experience may show the necessity of many modifications. In its present form there are difficulties which are scarcely fair to the medical profession, and the Central Midwives Board has recently drawn the attention of the Privy Council to the omission from the Act of any provision for the payment of medical fees.

Now, it is the universal spirit of the profession to be ever ready to render immediate help in the hour of danger, and it is true that every medical man acknowledges a moral obligation to assist in every form of emergency. Still, as the law now stands, medical men will be summoned in every part of the country, and many practitioners will have to travel miles to aid midwives in cases of difficulty and danger. The fact is medical men everywhere will be practically responsible for the safety of the poor parturient women during the attendance of midwives practising under legal supervision, and, therefore, for the successful operation of the Act some amendment is necessary in order to provide a fair scale of remuneration for professional services.

I am, Mr. President and Gentlemen,

Yours very faithfully,

JOHN WARD COUSINS.

VIII. Indian Government and Fees to Medical Officers.

At their Meeting in October the Council had under consideration a letter from the Chairman of the Council of the British Medical Association calling attention to a recently issued order of the Government of India in regard to the remuneration of medical officers for attendance on native chiefs and nobles. The letter stated that the British Medical Association was endeavouring to obtain the withdrawal of this order, as an improper interference between the patient and the medical attendant, and it was suggested that the Licensing Bodies might advantageously take up the question.

The Council, however, while sympathising with the views held by the British Medical Association and recognising the propriety of a body, such as the Association, taking up the matter, were of opinion that it would not be desirable for the College to depart from its rule of abstaining from interference in questions relating to fees and decided to take no action in the matter.

IX. The Investigation of Factory Accidents.

A letter, dated the 29th March 1905, was received from the Hon. Secretary of the Association of Certifying Factory Surgeons, calling attention to the proposition, contained in the Accidents (Mines and Factories) Bill then before Parliament, to abolish the present statutory requirement placed upon the certifying surgeon to investigate such accidents occurring in factories and workshops as are caused by machinery in motion, explosion, escape of gas, &c., and to substitute a discretionary power with the local factory inspector, who will decide, from a perusal of a filled-up notice form sent in by the employer, what accidents require a surgeon's investigation; inviting the consideration of certain points, and asking the College, if it should consider the subject, to forward the result of such consideration, if in agreement with the contentions of the Association, to the Secretary of State for Home Affairs.

To this letter the Council replied that the questions at issue appeared to them to be connected with matters of administration, into which it would not be within their province to enter, and that, while sympathising with the members of the Association in their wish to secure the fullest investigation into factory accidents, they regretted that they were unable to assist in promoting the views of the Association.

X. Removal of Members.

During the year the names of two Members, viz., Hugh Stanley Revell, M.R.C.S. 1894, and Percival Humble Watson, M.R.C.S. 1873, have been erased from the College List.

The names of both Members had previously been removed from the Medical Register by order of the General Medical Council.

Mr. Revell had been convicted of obtaining money by false pretences from the Guardians of the Wandsworth and Clapham Union, under whom he held the office of Medical Officer and Public Vaccinator.

Mr. Watson was found guilty of adultery by decree of the Divorce Court, and, as the married woman, with whom the adultery had been committed, was a patient, whom he was attending professionally, he was adjudged by the General Medical Council to have abused his position as a medical man.

XI. Jacksonian Prize.

The Jacksonian Prize for the year 1904 has been awarded to Mr. Herbert John Paterson, F.R.C.S., of 9 Upper Wimpole Street, for his essay on "The Diagnosis and Treatment of such Affections of the Stomach as are amenable to direct Surgical Interference."

The subject for the year 1906 is "The Diagnosis and Treatment of those Diseases and Morbid Growths of the Vertebral Column, Spinal Cord and Canal which are amenable to Surgical Operations."

XII. Blane Medals.

The Sir Gilbert Blane Medals have been awarded to Surgeon Sidney Thomas Reid, M.R.C.S., H.M.S. 'Vestal' 1901–2 and Surgeon Robert William Glennan Stewart, M.B., H.M. Ships 'Latona' and 'Thames' 1903.

This Medal was founded by Sir Gilbert Blane in 1830, when he transferred to the College under a Deed of Trust a sum of money to provide for two Gold Medals to be conferred once in every two years on two Medical Officers of the Royal Navy "who in the time required shall have delivered to the proper office Journals evincing the most distinguished proofs of skill, diligence, humanity, and learning in the exercise of their professional duties."

The Journals are submitted for adjudication to the President of the Royal College of Physicians of London, the President of the Royal College of Surgeons of England, and the Director-General of the Medical Department of the Royal Navy.

XIII. Jenks Scholarship.

Mr. Charles Gibson, formerly a Student at Epsom College and now at the London Hospital, has been elected the twelfth Jenks Scholar.

This Scholarship was founded in 1893 by Miss Johnstone of Bath in memory of George Samuel Jenks, M.D., F.R.C.P. Lond.

Miss Johnstone's Will assigns the nomination of the Scholars to the President and Censors of the Royal College of Physicians and to the Council of the Royal College of Surgeons alternately, with a first claim or preference for students educated at and leaving Epsom College; and directs that one Scholarship be awarded annually, tenable for five years. The value of each Scholarship is about £27 a year.

XIV. Foundation of Macloghlin Scholarship.

Mrs. Eliza Macloghlin has offered to found and endow a Scholarship at the College in memory of her husband, the late Mr. Edward Percy Plantagenet Macloghlin, M.R.C.S., and the following is a brief statement of the circumstances which have induced Mrs. Macloghlin to make this proposal.

Mr. Macloghlin received his medical education at University College, Liverpool, where he gained several distinctions including the Bligh Gold Medal in Anatomy and Physiology in 1880–81, first place in class examination in Medical Jurisprudence and Toxicology and Silver Medal in 1881, and first place in class examination in Pathology and Silver Medal in 1882. In 1884 he became a Member of the Royal College of Surgeons of England, and afterwards settled at Wigan, where for several years he carried on a large and successful practice. Ill-health, however, compelled him to retire from practice, and he latterly resided at Southport, where, after a long illness, he died on the 17th April, 1904. In his early career Mr. Macloghlin was hampered by want of means, and it was only by his own labour and exertions that funds were provided for his education. It was the recollection of these early difficulties which, when success came in later life, suggested to Mr. Macloghlin the idea of founding a Scholarship at the Royal College of Surgeons of England for the purpose of assisting young students, in need of financial help, to proceed with their professional studies.

Mrs. Macloghlin's offer is thus made in accordance with the intention and expressed desire of her husband, and she proposes to devote a sum of Ten Thousand Pounds to the purpose.

The Council have gladly accepted this munificent offer, and have agreed to administer the Trust upon the following conditions, which have been approved by Mrs. Macloghlin, viz. :—

CONDITIONS OF TRUST.

The sum of Ten Thousand Pounds, free of legacy duty, to be bequeathed to the Royal College of Surgeons of England by Mrs. Macloghlin for the purposes hereinafter mentioned.

The Council of the College to invest the said sum of Ten

Thousand Pounds in the name of the College in, or upon, any of the investments authorised from time to time by Act of Parliament or the Rules of the Supreme Court for investment of Cash under the control of, or subject to, the order of the Court, with liberty to vary any of such investments for others of a like nature.

The Council of the College to apply the income arising from the Trust Fund (after paying out of such income the charges and expenses for the time being incident to the Trust) in payment to the persons who shall from time to time be the holders of the Scholarships hereby founded.

Five Scholarships to be founded—the first to be given away in the first year succeeding the investment of the fund, and another in each of the next four ensuing years, so that there may always thereafter be one Scholarship to be given away in each year.

The exact amount to be paid to each scholar in each year to be determined by the Council of the College, but to amount, as near as circumstances may permit, to one-fifth part of the net income for the time being of the Trust Fund.

The surplus income, which shall arise until the whole of the five Scholarships shall have been once awarded, and any surplus income which may arise at any subsequent time from any cause, to be invested in manner hereinbefore provided and added to the capital of the Trust Fund.

The Scholarships to be called the "Macloghlin Scholarships," founded by Mrs. Macloghlin in memory of her husband, the late Edward Percy Plantagenet Macloghlin, M.R.C.S., formerly of Wigan.

The scholars to be young men studying and seeking to qualify themselves as Members of the Royal College of Surgeons of England.

No student to be allowed to compete for a Scholarship unless he shall be nominated as a candidate for a Scholarship.

Such nominations to be made by the Council of the College upon the recommendation of the Headmaster of an Institution recognised by the College for instruction in Science, or of such Headmaster or Teacher as the Council may decide to recognise for such recommendations, provided always that nominations shall only be made in the case of students whose conduct has been satisfactory and who are in need of financial assistance in the prosecution of their studies.

The candidates so nominated to be required to enter for the First Professional Examination for the Diploma of Member of the Royal College of Surgeons of England, or for such other examination as the Council of the said College may from time to time determine, and the Scholarship to be awarded to the candidate passing the best examination.

The Council of the College to have power to vary the conditions under which the Scholarships shall be competed for,

and to determine any Scholarship in the case of any scholar, who shall cease to study and qualify himself for the Membership of the College or fail to comply with the Regulations relating to the Scholarship from time to time appointed by the Council of the said College, or who shall so misbehave himself as, in their opinion, to be unfit to continue to be a holder of such Scholarship.

Mrs. Macloghlin proposes to start the scheme on the expiration of five years from the date of her husband's death.

The value of each Scholarship should be about £60 a year.

XV. Begley Bequest.

The late Mrs. Jane Begley, widow of Dr. William Chapman Begley, a former Member of the College, has bequeathed to the College a fund producing £20 a year for a Scholarship in Surgery and Anatomy.

Mrs. Begley's Executors have purchased £800 2½ per cent. Consols in the name of the College in satisfaction of the Bequest, and Regulations relating to the Scholarship will shortly be published by the Council.

XVI. Hunterian Festival.

The Hunterian Oration was delivered by the President, Mr. John Tweedy, on the 14th February, 1905, the anniversary of John Hunter's birth.

In the evening the usual Banquet was held and was attended by a number of distinguished guests.

XVII. Lectures.

The following Lectures have been delivered during the year, viz.:—

Hunterian Lectures.

Professor C. T. Dent	Two Lectures on "Congenital Hypertrophic Stenosis of the Pyloric Cord" and one Lecture on "The Forms of Softening and Fracture of the Bones occurring in Childhood and Youth."

Professor W. S. Handley .	Three Lectures on "The Dissemination of Mammary Carcinoma."

Mr. Percy W. G. Sargent.	One Lecture } teriological Study."

Bradshaw Lecture.

Mr. A. W. Mayo Robson .	One Lecture on "Cancer and its Treatment."

XVIII. Fellows' Dinner.

The Fellows' Dinner was held in the Library of the College on Thursday, the 6th of July, after the election of Members of Council on that day. The Chair was taken by the President, Mr. John Tweedy, and 89 Fellows were present.

In the course of the evening Mr. Thomas Bryant, on behalf of the surviving members of the Permanent Committee of the Fellows' Dinner formerly held outside the College Premises, presented a loving-cup to the College, together with the Minute Book of the Committee giving particulars of the Dinners held between 1846 and 1897.

XIX. Finance.

Income.

The gross Income of the College for the past year amounts to £25,755, being £1214 less than the gross Income of the previous year.

As regards the fees received by this College from the Conjoint Examining Board in respect of the examinations for the L.R.C.P. and M.R.C.S., there is an increase of £116 on the First Examination, but a decrease of £301 on the Second, of £114 on the Third, and of £391 in the Diploma Fees paid by University Candidates, resulting in a net decrease of £690.

The Incidental Receipts from the Conjoint Examining Board are £354 less than in the previous year, but in that year an increase of £558 was shown owing to the exceptional amount realized from letting rooms at the Examination Hall for special occasions.

There is also a small decrease of £35 in the fees for the Diploma in Public Health.

There is again a small increase, amounting this year to £59, in the fees for the Fellowship, while as regards the fees for the Licence in Dental Surgery there is a decrease of £219.

There is an increase of £61 under the head of Receipts from Investments, due to additional investments, and a still larger increase would have been shown if the rate of the Income Tax had not been raised.

The other divisions of the Receipts show little variation and do not call for comment.

Expenditure.

The Expenditure of the College for the past year amounts to £23,025, or £1149 less than the Expenditure of the previous year.

The amount of the fees paid to the Examiners of the Conjoint Examining Board is £269 less, and the expenses at the Examination Hall are £232 more.

The expenses of the Fellowship Examinations remain at about the same figure, while in the expenses of the Examinations for the Licence in Dental Surgery there is a decrease of £244.

The most notable difference as regards Expenditure occurs in the case of the General Working Expenses of the College in Lincoln's Inn Fields, these being £930 less than in the previous year. Here there is a decrease of £540 under Pensions, of £80 under Repairs, of £105 under Furniture and Fittings, and of £192 under Rates and Taxes. This last decrease arises in consequence of the recent redemption of the Land Tax and a reduction in the Westminster City rate. The expenses under Fuel and Light and Miscellaneous Items are also rather less, while there is a small increase as regards Salaries and Wages and Law Expenses.

The Special Expenses of the Museum do not vary much from those of the previous year, the total being £51 less.

The Special Expenses of the Library continue to grow, there being an increase of £123, and the expenses under this head, both in the case of Salaries and Wages and in that of Purchases and Binding of Books, are higher than on any previous occasion.

The Extraordinary Expenditure has again been heavy, amounting to £1103, the chief items being £600 for part of the cost of an Annuity for the Widow of the late Secretary, and £338 for re-decorating Rooms I. and IV. of the Museum.

Under the head of Trust Funds disbursements occur this year in respect of the Hunterian Festival and the Blane Naval Medals, making the total larger than in the previous year.

General Remarks.

The balance of Income over Expenditure amounts this year to £2730, and is only £64 less than the amount realized last year, in spite of the fact that the gross Income is £1214 less.

During the year the general investments of the College have been increased by the purchase of £2700 London County 3 per cent. Stock. THE MUSEUM.

The Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed Rooms Nos. III. and IV., which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

† 2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

† This Clause was altered by permission of the Lords of the Treasury in 1894, to the following, viz.:—

2nd. That one Course of Lectures, not less than twelve in number, on Comparative Anatomy and other subjects, illustrated by preparations from the Hunterian Collection and the other contents of the Museum, shall be given every year by Fellows or Members of the College.

Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of Room No. V., at the expense of £25,000, Parliament granting £15,000 in aid thereof. The rearrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855. The Collection still continuing to increase and more space having again become necessary, the College in 1888 determined to erect, at a cost of £19,000, two new Museums on the western side of the old structure. These buildings, called Rooms Nos. I. and II., were completed in 1891. Besides giving greater accommodation for the Collection in general they have also provided space for the display of photographs and drawings illustrating Diseases.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads :—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osteological preparations	965
Dry do.	617
Zoological do.	1968
Fossils :—	
Vertebrate	1215
Invertebrate	2202
Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1084
Dry preparations (including bones)	625
Calculi and concretions	536
Monsters and Malformations	218
Microscopic preparations	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth, and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held four meetings during the past year.

A summary of the progress made in the preservation, arrangement, and augmentation of the Collection will be found in the following Report.

CONSERVATOR'S REPORT.

Department of Pathology.

Descriptions of the preparations added to the Pathological Series during the past year have been prepared, and form the 19th Appendix to the general Catalogue of the Pathological Series in the Museum.

Amongst the additions special mention may be made of the following:—

25 D, atrophy of the comb after castration of a fully-grown fowl. Presented by Prof. A. Watson of Adelaide.

1598 A, osteoma of the terminal phalanx of the second toe, a very unusual position. Presented by Mr. E. R. Dawson.

A series of six preparations, accompanying the Jacksonian Prize Essay of 1904 (Mr. Paterson), illustrating surgical operations performed on the stomach. They constitute a valuable addition to the Museum.

A series of gall-bladders removed for acute cholecystitis. Presented by Mr. A. W. Mayo Robson. These also are a valuable addition.

2906 D *c*, an exophthalmic goitre. Presented by the Authorities of St. Thomas's Hospital through Mr. S. G. Shattock.

In this case, the thyroid presents the abnormal structure met with in Graves's disease, while one of the parathyroid glands (dissected out by Mr. Pearson) presents a normal microscopic structure.

A 3502, a soft fibroma, which lay partly within and partly without the larynx, and which was removed by external operation without the laryngeal cavity being opened. Presented by Sir Felix Semon.

Department of Human and Comparative Anatomy.

The most important additions to the Deparment of Human and Comparative Anatomy are:—The skull of a Pigmy Hippopotamus (*H. liberiensis*), a very fine example presented by Sir Harry Johnston, G.C.M.G.: of this skull we had previously only a cast.—Eight human skulls from New Britain of which one shows a healed hole, probably the result of native trephining to let out "evil spirits": presented by Mr. C. G. Seligmann.—From Prof. Herdman, F.R.S., we have received one whole shell and one half of *Margaritifera vulgaris*, obtained from the Gulf of Manaar, Ceylon, interesting as furnishing the precious pearl.—Various parts of viscera from an Elephant, presented by the London County Council through Prof. Haddon.—A cast of the leg-bones of an Æpyornis, and the skeleton of the rare Leathery Turtle (*Dermochelys coriacea*), the animal from which it was obtained having been previously purchased by the College.—Fourteen injected brains of various animals which have been made the subject of papers by Mr. F. E. Beddard, F.R.S.—The right half of the distal end of the penis of a Rhinoceras showing a special process of the glans prolonged over the body of the penis, displayed by the removal of the fibrous sheaf of this process.

Examples of skulls of the more important Carnivora have been specially mounted to show the varieties of their dentition.

Rooms I. & IV. have been repainted, and the cupboard for the specimens rejected from Room V. is being rapidly completed.

The description of the specimens that will be comprised in Vol. III. of the Physiological Catalogue has now been completed.

THE LIBRARY.

The Library of the College dates from the year 1800, in July of which year the first grant of a sum not exceeding £50 was made for Library purposes. It had been the intention of the old Corporation of Surgeons to form a Library, but they failed to carry their intention into effect. In its early years the Library was considerably increased by presentations and bequests of books—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which were to be devoted to the same object. By these means extensive purchases were from time to time made from the libraries of Mr. Pitt, Mr. St. André, Sir Anthony Carlisle, and others. The progress of the Library, however, for the first twenty-six years of its existence was very slow, but in 1827 great efforts were made to put it in a thoroughly good condition; in that and the two subsequent years the sum of £5269 was spent in the purchase of books, and in 1829 the first Librarian was appointed. The College was practically rebuilt by Sir Charles Barry in 1835-36, and during that period the Library was closed, the books being packed in cases and stored in the Museum Gallery. On the 15th of February, 1837, the Library was re-opened, the rooms in the new building allotted to this department being the Reading-Room and the Librarian's Room. From this date until 1888 very little extra accommodation had been provided for the Library, a small Committee-Room had been fitted up with shelves and room made for a few books under the Theatre.

The munificent gift of Sir Erasmus Wilson enabled the Council in 1888 very materially to increase the Library accommodation, and at the same time to improve and re-decorate the existing building. The residence of the Conservator of the Museum at the east end of the College was pulled down, and the building erected on its site was devoted to Library purposes. On a level with the old Reading-Room an extension was built, the two rooms being connected by four archways, two on the ground and two in the Gallery. Beneath this a handsome Book-Room was provided, and below that a spacious Store-Room. The new building, as at present shelved, gives accommodation for 26,000 volumes. The Librarian's Room was considerably improved by throwing into it a loft above the old ceiling and a passage which led into the Reading-Room.

The whole of the Library premises were re-decorated, and the Electric Light was installed throughout. The heating apparatus, which was under the floor at the south side of the Library, was all removed, and in its place a coil of hot-water pipes was placed in each window. The gallery railing, being in an unsafe condition, was replaced by one of a stronger pattern.

This extension of the Library made it possible to re-arrange the books in such a way as to make them more accessible to readers. In the Gallery of the Extension stand the books on Anatomy, Physiology, Pathology, Medicine and Surgery; round the Reading-Room are ranged sets of the Periodicals and Transactions in greatest demand. There is also a good collection of dictionaries, encyclopædias, systems and general books of reference, conveniently arranged for the use of readers.

The lower room contains books on Chemistry and Physics, Materia Medica and Therapeutics, Forensic Medicine, Diseases of Women and Children, History of Medicine and Surgery, Biography and Bibliography. The basement is devoted to

old sets of Journals and Transactions, a collection of Theses, and to miscellaneous books.

The Librarian's Room contains the books on Biology, and certain valuable works which are kept in glass cases.

The current numbers of the Journals are displayed on tables down the middle of the Reading-Room: four of these are fitted with sliding trays, in which books too large for the wall-cases, and illustrated works still in progress, are kept. The new books are placed on a stand in the centre of the Room; these are catalogued directly they are received, and are at once available for readers. A list of the additions is posted in the Library.

The first Catalogue of the Library was issued in 1831. A classed Catalogue was prepared by Dr. Willis, and was in use in MS. for some years; in 1838 a synopsis of it was printed, and the work itself was published in 1843. In 1853 an index of subjects was issued, and four supplements to the Author Catalogue were published between the years 1840 and 1860. In 1890 a List of Transactions, Periodicals, and Memoirs in the Library was published. A new Catalogue of Authors and Subjects is now being prepared on cards; these are kept in two cabinets at the west end of the Reading-Room, and are available for use by the readers. When the work is finished the cards can be used as copy for the printers.

The Library is particularly rich in the Transactions of Societies, and in Periodicals relating not only to Medicine and Surgery, but also to the accessory sciences. The large illustrated works on Zoology, Anatomy, &c., are also well represented. There is a good collection of Portraits of Members of the Medical Profession.

In December 1892 a Common Room for the use of Fellows and Members was opened in the Reading Room adjoining the Hall.

A new Store Room for books was fitted up on the basement in 1901.

The Donations to the Library during the past year include "Diseases of the Stomach," Edit. 2; "Diseases of the Gall-Bladder and Bile-Ducts," Edit. 3; "Cancer and its Treatment" (Bradshaw Lecture); and his Hunterian Lectures on "Certain Diseases of the Pancreas," from Mr. Mayo Robson; "Gazette Hebdomadaire des Sciences Médicales de Bordeaux" for 1904 and onwards, presented, on the occasion of the visit of French Physicians and Surgeons to London, by Professor Sabrazès; "L'Aesculape" and other literature in connection with the visit of English Physicians and Surgeons to Paris in May 1905; the Centenary volume of the Royal Medical and Chirurgical Society by Dr. Moore and Mr. Stephen Paget; and "Comptes Rendus" and Volume Général of the XIV^{e} Congrès International de Médicine, 1904, from Mr. Edmund Owen; a Tibetan-English Dictionary by Sarat Chandra Das, and five volumes of the "Investigator Reports," from Sir Joseph Fayrer, Bart., K.C.S.I.; a French translation of Edit. 3 of his "Injuries and Diseases of the Jaws," from Mr. Heath; a number of his pamphlets from Mr. Harrison; "Æquanimitas and other Addresses" from Professor Osler; 8 volumes of the "Transactions of the American Association of Obstetricians and Gynecologists," from Dr. Edgar Cyriax; a number of books from the library of the late Sir William Bowman, from Mr. Peyton Beale; a photograph from a portrait of the late Mr. Edward Trimmer, from Mrs. Trimmer; and from the President, besides other donations, a very valuable collection of eight Early Printed books dealing with Medicine and Surgery, and issued from Italian presses at the close of the fifteenth century.

VICTOR G. PLARR,
Librarian.

REGULATIONS RESPECTING THE LIBRARY OF THE ROYAL COLLEGE OF SURGEONS OF ENGLAND.

From January to July and from October to December the Library is open on each week-day, except Saturday, from 11 A.M. to 7 P.M. During August it is closed at 6 P.M., and is shut altogether in September. On Saturdays the Library always closes at 1 P.M.

In a Place dedicated to the purposes of Study, it is highly desirable that Silence should be observed.

The Library being intended for purposes of Reference, *the removal of any book from the Reading-Room by Readers is strictly forbidden.*

Readers are permitted to take books from the shelves for use in the Reading-Room; but they are particularly requested not to return the books to their places, but to leave them on the Table.

Members of the College have the privilege of personally introducing a Visitor.

Persons, not Members, desirous of Admission must make application in writing to the Librarian, specifying their Christian and Surnames, Rank or Profession, and Residence; which application must be accompanied by a letter from a Fellow or Member, recommending that a Ticket may be granted to the Applicant. Tickets of Admission, which are not transferable, are granted for six months, at the expiration of which time application must be made for their renewal.

In the case of Students the application must be made on a form which may be obtained from the Librarian. Tickets are granted to Students on the sole condition that the Library is used by them for such purposes of study as they may be unable to pursue without the aid of books not accessible elsewhere. These tickets are granted for three months, at the expiration of which time application must be made for their renewal if the holder wishes to retain the privilege of reading in the Library.

The Catalogue in course of preparation is in a Cabinet at the west end of the room. Readers are requested to make personal application to the Librarian for any book they do not find in the Catalogue, as it must of necessity be incomplete for some time.

Readers, taking extracts from any book, may not lay the paper on which they write on any part of such book; nor may any tracings be taken from any plate without the permission of the Librarian.

Books belonging to the College are not to be written upon; and any one observing a defect in a book, is requested to report the same to the Librarian.

Readers desirous of consulting works not in the Library are requested to enter their wants in a book provided for that purpose, in order that the same may be reported to the Committee.

Every person before admission to the Library is required to insert his name and residence in a book provided for that purpose.
